

PLEASE CLEAN UP YOUR GEAR

**CAST IT OUT, PACK IT OUT.
LIVES ARE ON THE LINE**

WHY?

- Fishing line can wrap around limbs
- It can tighten over time and cut into the skin
- This can lead to serious injury or loss of a limb
- Hooks and lures can become embedded or swallowed
- Discarded gear can trap and kill wildlife

WHAT TO DO:

- Pack out all gear and waste
- Collect loose fishing line
- Cut used line into smaller pieces
- Check the area for hooks, lures, and lines
- Keep track of your gear
- Do not leave lines or bait unattended
- Secure gear when not in use

HELP KEEP OUR WILDLIFE SAFE!

If an animal is injured or trapped,
DO NOT TRY TO FREE THE ANIMAL YOURSELF.
