

PLEASE DON'T FEED US BREAD

LEARN. ACT. MAKE A DIFFERENCE.

WHY NOT?

- Bread doesn't give us nutrients
- We think we're full & don't eat healthy food
- It can cause deformed wings (Angel Wing)
- Pollutes the water
- Increases bacteria in the water that kills fish
- Encourages crowding & disease spread
- Attracts rodents

FEED INSTEAD:

On Land

- Peas (thawed)
- Corn
- Oats
- Leafy greens
- Birdseed
- Duck & Goose Blend

In the Water:

- Floating waterfowl feed (Mazuri, Natural Waterscapes, Country Heritage)
